

**KAMC
WHAT IT DOES FOR YOU!**

Here are just a few good reasons:

Kentucky Automatic Merchandising Council is watching over the food and beverage vending industry every day of the year. It monitors and lobbies the Kentucky Legislature and state agencies to get the results you need to operate your business more cost-effectively.

Besides providing your company with connections to the state legislature, KAMC offers the opportunity to network with other professionals in the industry.

KAMC is directed by a volunteer board of directors elected from across the state. Members can contribute to the growth of the council through committee participation, submitting newsletter articles and assisting at meetings of the council.

Annual dues may be a tax deductible business expense and your company's membership is an investment in the industry. KAMC provides a wealth of information and benefits to help your company stay ahead in the business.
